Summary

As a dedicated and skilled Software Developer, I specialize in designing, developing, and maintaining high-quality software applications. My passion lies in creating innovative solutions that drive efficiency and scalability. With a robust background in software engineering, web development, and machine learning, I am committed to delivering exceptional results that meet the unique needs of clients and stakeholders.

Key Strengths:

MERN Stack Expertise: Proficient in MongoDB, ExpressJS, React, and NodeJS, enabling the development of full-stack applications that are both robust and dynamic.

Front-End Development: Skilled in HTML5, CSS3, JavaScript, and frameworks like Tailwind CSS, Bootstrap, and Redux, ensuring responsive and engaging user interfaces.

Machine Learning Proficiency: Experienced with Python libraries such as NumPy, SciPy, Scikit-learn, Keras, and TensorFlow, providing data-driven insights and intelligent solutions.

Plugin Development: Created impactful plugins like GlassAura and Claymorphism for Figma, enhancing user experience and design capabilities.

Effective Communication and Collaboration: Known for collaborative problem-solving, clear communication, and delivering projects on time and within scope.

Career Highlights:

Web Developer at Exceloweb Solutions: Successfully built, deployed, and maintained internal web applications, contributing to the company's rapid growth and innovation.

Figma Plugin Developer: Developed GlassAura and Claymorphism plugins, recognized for their ease of use and enhancement of design workflows.

Education:

BS in Software Engineering from the University of Management and Technology, with a CGPA of 3.61.

I am always eager to connect with like-minded professionals and explore new opportunities to leverage my skills in creating value-driven software solutions. Let's connect and discuss how I can contribute to your next project!
